ART UNIT PAPER NUMBER

1638

DATE MAILED: 07/14/2004

Please find below and/or attached an Office communication concerning this application or proceeding.

Non-Responsive Communication

1. The amendment filed on 4/26/2004 in response to the office communication mailed 3/11/2004 is non-responsive for the following reasons:

I) The numbering of claims is not in accordance with 37 CFR 1.126 which requires the original numbering of the claims to be preserved throughout the prosecution.

When new claims are presented, they must be numbered consecutively beginning with the number next following the highest numbered claims previously presented (whether entered or not). Applicant has failed to recognize that claims 36-39, presented in the amendment filed 5/21/2002, are still pending.

II) The amendment filed on 4/26/2004 canceling all claims drawn to the elected invention and presenting only claims drawn to a non-elected invention is non-responsive (MPEP § 821.03). The remaining claims are not readable on the elected invention because they are drawn to a method for the production of modified endosperm comprising down-regulating one or more DNA methylating enzymes present in the plant. Applicant elected Group X, drawn to a method for the production of modified endosperm comprising transforming a plant with a nucleic acid encoding a de-methylating enzyme.

2. Since the above-mentioned amendment appears to be a *bona fide* attempt to reply, applicant is given a TIME PERIOD of ONE (1) MONTH or THIRTY (30) DAYS, whichever is longer, from the mailing date of this notice within which to supply the omission or correction in
